

Dear Parents/Guardians;

Central Community High School offers the option to prepay for student meals by simply delivering cash or a check directly to our office staff or food service personnel in a prepaid manner. The option allows you to prepay for meals in any convenient amount without having to pay a transaction fee of any type. You will not be required to access any system or participate in any program in order to prepay for breakfast or lunch using this method. Prepayment allows your son or daughter the ease of food services each day with no need for regularly carrying cash.

The Qmlativ Student Management System provides information on each student's food service balance at any time. Parents can access the system and view their child's balance in their prepaid account. An automated email message will also let parents know when their account has reached a reduced level and we encourage you to add an additional amount to your prepaid account at that time. Any student can also obtain their account information by accessing the student portal of Qmlativ or by inquiring with the cashier in the cafeteria line.

We hope that you find these services to be convenient options. Your student can also still purchase breakfast or lunch with cash. However, we encourage you to utilize the direct prepay method in order to reduce the exchange of cash at school and in the food service line. If you have any questions, please contact the school anytime and we will do our best to assist you.

Thank you.
